

Protect Your Data

with Managed Data Backup from Polar

Protecting your electronic files is easy and safe with Managed Data Backup from Polar Communications and Bolt Data Systems.

Managed - Our technicians manage the backup process and send you daily notifications. If disaster strikes, they will work with you to restore your data. Our experts handle the work for you.

Secure - Your electronic data is encrypted and sent using 128-bit SSL, the same technology banks use, to our highly secure, geographically dispersed, state-of-the-art data centers.

Affordable - New pricing makes protecting your important business information more affordable than ever, as low as 80¢ per GB, a small investment for peace of mind and managed expert services.

93% of companies that suffer a significant data loss are out of business within five years.*
