FOR IMMEDIATE RELEASE

Polar Communications Purchases Lakota Cable System

Park River, ND 58270 – February 26, 2008—Polar Communications announced today they have completed the purchase on the Lakota Cable TV System from Sioux Falls, SD based Midcontinent Communications.

Polar will cutover Lakota Cable TV customers to their system on February 27th, working through the entire community to upgrade customers to their new channel line up and new video options from Polar.

“We began serving the community of Lakota telecommunications in 1996 through a purchase from US West,” says David Dunning, General Manager/CEO of Polar Communications. “We’ve enjoyed serving this community and look forward to providing video services.”

Polar will be adding several channels to the current Lakota Cable TV line up as well as premium channels, bundled packaging, and more.
