## **FOR IMMEDIATE RELEASE**

### **Polar Sponsors Northeast Regional Science & Engineering Fair**

**PARK RIVER, ND – April 6, 2004 – Polar Communications, corporate sponsor of the 2004 Northeast Regional Science and Engineering Fair, provided over 130 students a chance to share their projects. Elementary, junior high and senior high school students from the counties of Pembina, Cavalier, Walsh, Nelson, Grand Forks, and Traill consider the northeast regional event the next step after the local level. Over 130 students participated in this year's event held at UND on March 10, 2004. Thirty-four students from the regional event were chosen to advance to state competition at NDSU, April 1-2, 2004. From this group, two students were chosen to participate in the International Science and Engineering Fair at Portland Oregon in May.**

***Kathy Melaas, Valley High School and Northeast Regional Science Fair accepts sponsor check from Polar General Manager David Dunning.***
