

Recommended Devices*

A recommended device is one that we are confident in the features, responsiveness, presentation, and usability experience of the Polar Streaming TV app on that hardware. Polar Streaming TV is fully supported on these devices and platforms:

Amazon Fire TV

- Amazon Fire TV (2nd or 3rd Gen.)
- Amazon Fire TV Stick (4K, Lite, 3rd Gen. or Alexa Voice Remote)
- Amazon Fire TV Cube
- Amazon Fire TV Set

Android TV

- Devices running Android 4.4 or later
- Chromecast with Google TV
- TiVo Stream 4K

Apple TV

- Apple TVs with App Store (4th or 5th Gen.)

Smartphones & Tablets

- Latest Android (4.4)
- iOS 10 or later

Web Browsers

- Windows
 - Chrome (latest version)
 - IE 11 or Edge
 - Firefox
- MAC
 - Chrome
 - Firefox
 - Safari

*Visit polarcomm.com/streamingtv for the most updated list of devices.

NOTE: There are dozens of different kinds of Smart TVs that may or may not have an app store that can access the Polar Streaming TV app. Some Smart TVs may play Polar Streaming TV, while others may not. Polar Streaming TV works best on any of the recommended devices listed above. Although Polar Streaming TV may work on a Smart TV, Polar may not be able to provide technical support due to the numerous makes and models available.
